

education beyond classrooms

At NUV, we believe that students must achieve a good balance of academic productivity and collegial delight through an experience that connects what they do inside and outside the classroom. Students have plenty of opportunities to pursue personal interests with friends while undergoing a rigorous education, and make time at the University rich, substantial and fulfilling.

'Educating the mind without educating the heart is no education at all' - Aristotle

Student life at Navrachana University is vibrant and thriving with a variety of events round the year. In addition to academics, field trips and educational tours, NUV students are active around and beyond campus. Whether students are playing through the NUV Sports Club or cheering for friends, they are always busy participating and directing cultural events, organizing and attending Guest Lectures, participating and managing Workshops, administering and directing Quizzes, or participating, managing and organizing Extra-curricular activities-they are always busy.

To pursue personal interest, there are several student-run clubs like the Automates@NUV, Business@NUV, Engineers@NUV, Science@NUV, Music@NUV, Dance@NUV, Theatre@NUV, Photography@NUV, and SEDA@NUV, that allow education to flourish with other interests.

SCHOOL OF BUSINESS AND LAW

Bachelor of Library and Information Science

School of Liberal Arts and Education

NAVRACHANA UNIVERSITY

Navrachana University is a UGC approved University meeting norms and requirements of UGC and AICTE. Navrachana University comprises four schools offering a variety of under-graduate and post-graduate programs. Some of the salient features are:

Student-centric education with a focus on inter-disciplinary learning, research, practical learning and hands-on education

Develops students with breadth of understanding through inter-disciplinary education and a depth of knowledge through focused disciplinary education

Strict adherence to academic schedule and on-time examinations

State-of-the-art infrastructure facilities: Wi-Fi enabled campus; well-equipped library; modern laboratories for computer, engineering, and sciences; workshop facility for engineering, architecture and design students; well-equipped studios for design and architecture students; a computer-aided language laboratory; moot court for law students; amphitheatre and cafeteria.

School of Liberal Arts and Education

The school offers programs under Liberal Arts and Education. Under Liberal Arts it offers: Bachelor of Arts with specialization in Development Studies, Public Health and, Social Design and Innovation. Bachelor of Arts (Journalism and Mass communication) Under Teacher Education programs offered are: Bachelor of Education (BE.), Master of Education (ME.), Post graduate Diploma in Early Childhood Care and Education (ECCE) and Ph D (Education).

Well-known for its programs in teacher education which are NCTE approved, the school has a well-earned reputation in the field of teacher education due to its high quality curriculum, practice teaching and faculty research. The university, which has its roots in top quality schools, is well connected with the local education community and ensures that the knowledge and skills essential for a modern day teacher are adequately developed through its courses and successfully applied to the needs of schools and society. BE. has an excellent record (100%) in placement over the last eleven years.

The School offers several programs from under-graduate (BA) to Post-Graduate (ECCE, BE.,ME.) and Doctorate level and has a well-earned reputation in the field of teacher education due to its high quality curriculum, practice teaching and faculty research. It focuses on

- Content education (students develop content expertise),
- Delivery education (pedagogic and theory),
- Research education (students undertake research projects),
- User-connect (know your stakeholders), industry connect (know your profession) and social connect (know your community).

The school also conducts contextual research and disseminates information via Workshops, Seminars and Research publications.

BLISc Degree Program

BLISc (Bachelor of Library and Information Science) is Post Graduate Program.

In response to the demand for a large number of trained personnel in libraries, documentation and information centers, The University shall offer One year (Two semesters) full time Bachelor of Library and Information Science course (BLISc). Library and Information Science is an interdisciplinary program, graduate of any discipline can join this course. This course applies the practices, perspectives, and tools of management, information technology, education, and other areas such as library collection, organization, preservation, and dissemination of information resources. This course introduces students to the field of library and information science, and where those fields fit in the overall information infrastructure. We consider the historical context and discuss the present and future of libraries and information centers in a changing technological world.

This is a basic professional course designed to prepare Librarians/information scientists for work in all types of libraries and information centers whether it may academic like school level to university level, industry of any kind, various central or state government sectors i.e. railway, court, public libraries, Museums and galleries, Photo/film/radio/television libraries, Foreign embassies, News agencies and organizations and various research and development centers as a Cataloguer, Technical Assistant, Records Manager, librarian, information officer, Information scientist, documentation officer.
