

About Centre for ENVIRONMENT, RESEARCH & INNOVATION

The Centre for Environment, Research and Innovation (NUCERI), to contribute to the wellbeing of mankind with the focus on sustainable environment and health innovations.

NUCERI shall serve as a unique platform in terms of providing opportunities to interdisciplinary interactions amongst different stakeholders of this important topic of concern. There shall be research meetings, discussion forums, collaborations, workshops, seminars, conferences, round tables, panel discussions, training programs etc. conducted under the broad umbrella of this centre. The main aim of this centre shall be to find innovative and sustainable solutions by doing research and scientific proceedings as well as to establish meaningful national and international collaborations.

NUCERI shall serve as a unique platform in terms of providing opportunities to interdisciplinary interactions amongst different stakeholders of this important topic of concern. There shall be research meetings, discussion forums, collaborations, workshops, seminars, conferences, round tables, panel discussions, training programs etc. conducted under the broad umbrella of this centre. The main aim of this centre shall be to find innovative and sustainable solutions by doing research and scientific proceedings as well as to establish meaningful national and international collaborations.

Objectives:

1. To identify key concerns of Environment and Health
2. To collaborate with different Institutes/Universities/Industries at National and International level
3. To provide opportunities to students and faculties of the University to showcase their Research and Innovation capabilities
4. To promote research in these fields
5. To make people in general and scientific community in particular aware of the concerns by conducting workshops, seminars etc
6. To bring in technology innovation
7. To identify best management practices
8. To involve multidisciplinary inputs for problem solving involving all departments of the University
9. To focus on social innovation
10. To work towards global level collaborations and recognitions

Program/Activities

1. National and International Collaborations
2. Panel Discussions
3. Round Tables
4. Conference/Seminars
5. Research proposals for Funding
6. Awareness Programs/Activities
7. Workshops
8. Expert Lecture Series
9. Research Forums
10. Initiate New Programs: Certificate and Degree
11. Industry Tie-ups: Memorandum of Understanding
12. School Connect
13. Publishing Articles and Books etc.
14. Environment Auditing Centre
15. Competitions
16. Social media
17. Experimental Farm
18. Biodiversity garden
