7.1 The Academic year for each of the course shall be divided into terms / semesters. The semester that begins in July (*July to December*) is known as the *Autumn Semester* and the semester that begins in January (*January to May*) is known as the *Spring Semester*.

7.2 Both the semesters are of 16-18 weeks. During the summer vacation, i.e. between May-July, there is one additional period of approximately 8 weeks for summer courses known as the *Summer Term*. Few courses may run in summer and are taken by students to clear backlog courses. Internships, industry trainings, etc., wherever applicable, are also conducted during Summer Term.

8. ACADEMIC CALENDAR

Academic activities of the University are regulated by an Academic Calendar which is announced well before the beginning of each academic year (July - June). Academic Calendar gives the schedules for all its activities during the year including the dates of comencment of classes, dates of examination and date for the award of Degrees which will not be later than 180 days by which the students are expected to qualify and become eligible for such degrees.

It is mandatory for students/faculty to strictly adhere to the Academic Calendar for completion of academic activities.

9. CURRICULUM

Every program has a prescribed course structure which in general terms is known as the Curriculum. It prescribes all the courses, lab sessions, and other requirements for the program and sets out the semester-wise sequence of the courses. It also provides the syllabus for each course. Course is one of the constituent of the curriculum of a program traditionally termed as “Subject” or “Paper”. Each course of the University has a specific ode. The curriculum and the syllabi are duly approved by the Academic Advisory Board of the respective School and Academic Council of the University.

CHOICE-BASED ELECTIVE CURRICULUM

From the academic year 2022, the new batch of first years will follow a unique choice-based curriculum across all the programs and schools of NUV. This new curriculum will allow Under Graduate student to choose almost 15% (10% for Post Graduate Students) of their credits in form of elective courses. The remaining 85% credits will be from mandatory (Core) courses. Out of 15%

(10% for Post Graduate Students), Student must select 1/3rd elective courses outside of the school. However, student can choose rest of the 2/3rd elective courses either from their own School or other schools of Navrachana University. Student can opt 50% of total elective courses (i.e. 8% elective courses for Under Graduate students and 5% elective courses for Post Graduate students) as Non-GPA courses.

So every semester on an average, a student will take 6 credits elective courses of his/ her choice. student can pick these elective courses from any of the schools of NUV. Even mandatory courses of one school may be offered as electives for students of other schools. This means that each student of any program at NUV would have done different courses based on his/ her passion or professional plans. (For example a student of Mechanical Engineering might decide to pick more courses from SEDA or a student of BBA might decide to pick more language courses from SLSE or a BSc student who decides to pick elective courses on business and finance from SBL).

10. COURSE CREDIT STRUCTURE

Courses are assigned credits on the basis of the standard LTPC credit structure. The credits for a course are obtained from the number of contact hours per credit for lectures, tutorials, and practical's. Academic programs are allowed to distribute contact hours through the semester. Further, a one credit course shall be divided into a credit structure of 9-3-6-15, which indicates that the course has 9 hours of lecture, 3 hour of tutorial, and 6 hours of practical, and the total credit hours for the course equal to 15. A course can be of 1 credit, 2 credits, 3 credits, 4 credits (or higher in case of internship and research thesis) and will be presented accordingly in the semester grade report/transcript.

For weekly scheduling of classes each hour of lecture or tutorial is counted as one credit and each hour of practical is counted as half credit. Same LTPC structure is also used to compute faculty workload per week, e.g. 3-1-2-5 per week indicates 3 hours of lecture, 1 hour of tutorial, 2 hours of practical, and a total of 5 hours of workload per week.

Policy of Academic Leave for a Semester or Year

Navrachana University recognizes that situations may arise when a student may want to take a break in his/her academic studies. Reasons to go on full Semester Leave or Year leave could include critical illness, family catastrophe, financial crisis or any other grave circumstances, academic reasons such as poor performance, or a desire by the student for a break from academics. This leave will be for a minimum duration of one academic semester. It is expected that the student wishing to avail of this leave will apply prior to the start of the semester, if possible. If a student withdraws from all courses during a semester s/he will be deemed to be on leave of absence for that semester.

A student needs to apply through the Navrachana University ERP-Software. The application will be forwarded to the School Head. Once the application is approved, the student's status will be changed to "Academic Leave". This leave will not affect the CGPA but a notation about the said leave will appear on the transcript. During the said leave, the student cannot access the resources of the University such as the library, computer laboratory, canteen, etc. The student's Navrachana University email will continue, to be renewed every semester when the Academic Leave status is renewed.

In the case of a student not participating in course registration or being absent in class continuously for a period four weeks and more without prior intimation, the status of the student will automatically be considered as "Academic Leave".

A student who is granted Academic Leave is still required to complete all the degree requirements within the specified time of enrolment.

A student must obtain his/her degree as per clause no 17.2 from the year of enrollment, inclusive of the duration spent on the Academic Leaves. A relaxation of the maximum number of years may be granted by the University in exceptional circumstances.

The fee to maintain the "Academic Leave" status of the student is as per Annexure-4, to be reviewed annually. The student's account will be debited with the relevant amount every semester when the student is on Academic Leave. The student will have to pay the dues upon return from the leave. This fee will not be charged additionally if a student has already paid the fees for the semester and has forfeited at least Rs. 5,000 after any refund.

For a student on Financial Aid, the fee for such leave will be 50% of the above referred prescribed fee.

When the period of the said leave expires a student must either return from the leave and register for courses or apply again to extend her/his leave for another semester, or inform the University that he/she wishes to terminate his/her enrolment. If a student follows none of the

above options, his/her student status will be put on hold after his/her said leave ends. (The student's Navrachana University email will continue, as a way for the University to communicate with the student.)

If a student whose status is on hold wishes to revive his/her student status, he/she will have to pay the prescribed fee for the semesters he/she was on approved leave, and the fee for Academic Leave with an additional 25% thereof as penalty for the semesters that his/her student status was on hold.

A student's enrolment is automatically terminated if his/her student status is on hold continuously for four semesters.

The deadline to apply for the Academic Leave and refund of the semester fees already paid is as below.

Sr. No.	Percentage of Refund of Tuition Fees	Point of time when applied
1.	100%	30 days before the academic session starts
2.	50%	15 days before the academic session starts
3.	NIL	Thereafter

Return from the Academic Leave

A student who plans to return from the said leave must intimate the Programme Chair and School Head 60 days before the academic session begins, through an application via the Navrachana University ERP. The application will be processed by the Programme Chair and the student will be notified by email when the application is approved. The status will change from "Academic Leave" to "Active" when the new semester starts. The student can also track the status of their application. To return from the said leave, the student is required to pay the next semester fees with all previous dues including charges to maintain the Academic Leave status. Applications submitted after the course registration period is over will be considered separately and course registration will be allowed with the approval of the Dean of the School.
